HYOSUNG

Efficient. Secure. Compatible.

MS-500

The latest teller cash recycler (TCR) technology is available in the **MS-500**. Hyosung leverages global leadership in cash recycling technology and partnerships with leading financial institutions domestically in the innovative design. The **MS-500** is a digitally secure, fast and feature-rich cash recycler for financial institutions. The **MS-500** modular design and high capacity cassettes drive Hyosung's industry-leading availability and serviceability. Learn why large and small financial institutions continue to standardize on **MS-500**, helping make Hyosung the fastest-growing TCR and ATM company in the United States.

KEY FEATURES

SECURE CASH

Our external transit cassette dramatically reduces cash exposed and is interchangeable with other Hyosung products:

- Verified operators can add and remove cash from the recycler without opening the safe.
- Securely move cash inside the branch, from one device to another, and for CIT activities.

SELF-AUDIT

Say goodbye to time-consuming hand counting.

- Single denomination audit.
- Accurate and quick.
- Audit anytime.

CASH COUNT

With a built in currency counter, quick cash counts are easy.

HIGH CAPACITY

- 14,000 note total capacity or about $275,000.
- 100% stacking cassettes, no outdated RSM cassettes.
- Recycling cassettes are denomination configurable to meet your unique needs.

Windows10

Not all TCRs are created equal. Equip your branch with the best and most digitally secure system platform available.

CONTINUOUS FEED

The continuous feed capability allows bulk deposit processing without slow down.

- The highest speed and continuous feed combined make a big difference in branches where there are large commercial deposits.
