

eGlobal Renews & Expands Contract to Provide ATM Services in BJ's Wholesale Clubs

Contract Renewal and Expanded Program Offering Reconfirms eGlobal as a Key Provider of ATM Services to BJ's Wholesale Club and Creates Opportunities for ATM Branding for Financial Institutions

Kaysville, UT, September 27, 2013— eGlobal today announced a contract renewal with BJ's Wholesale Club, Inc., as the sole provider of ATM services to BJ's Clubs, adding a long-term contract extension to a relationship started in 2009. eGlobal, a leading supplier of full-service ATM solutions, will continue to own and operate more than 200 ATMs located in BJ's Clubs.

This program will continue to offer an important service to BJ's Members, and also create a compelling opportunity for banks and credit unions to participate in eGlobal's ATM Branding Program. Utilizing this program, financial institutions experience increased brand awareness, market reach, and surcharge-free transactions for their account holders at BJ's Club locations.

"We have a successful track record with BJ's during the last several years of providing outstanding ATM services to BJ's Club members and team members," said Melanie Orozco, EVP and General Manager for eGlobal. It's a logical extension at this point to expand this business relationship to include opportunities for banks and credit unions to participate and derive additional value from this program."

About eGlobal

eGlobal (www.eGlobal.com) is one of North America's largest providers of ATM services to hospitality, retail, and convenience industries. eGlobal deploys more ATMs than most banks and maintains one of the leading ATM uptime rates in the industry.
